

SPECIAL

SOLUTIONS & PROJECTS

WE SUPPLY WOOD PERFECTION IN SERIES.

KOLAR
WOOD ELEMENTS

SPECIAL

SOLUTIONS & PROJECTS

TURN YOUR
VISIONS INTO
REALITY.

Dear valued customers and business partners,

We are pleased that you are holding the new Kolar project catalogue in your hands. It offers a complete overview of our numerous services and is a reflection of wonderful results made of wood.

Our motto is „We deliver wood perfection in series“. What does this message mean? It is our VENDOR PARTS made of WOOD that we have been carefully manufacturing for our partners over generations, both in small and large series.

We want our NATURAL products to enhance your ideas and your property and bring added value to living or working environments.

We are specialists in customized solutions. Special productions for industrial and commercial customers are our main business. From the designer's first sketch to development and reliable production, our employees are at your service. Our long-term customers in the door, window and furniture industry, along with hotel, shop and property furnishings as well as the carpentry trade have valued this service for over 90 years.

As an owner-managed, medium-sized family company with a global focus, we can offer you the diversity and competence of a big company and the speed and flexibility of a small company.

**CHALLENGE US WITH YOUR IDEAS!
WE LOOK FORWARD TO IT!**

DAGMAR & CHRISTOPH POINDL
Managing Directors Kolar GmbH

PS: This brochure consists of 3 chapters:

1. Series parts that we deliver to our customers in industry.
2. Exciting projects where one-off special solutions are implemented quickly.
3. Creations by carpenters from our (standard) catalogue products, mostly directly on stock.
4. We would like to write the fourth chapter with you.

KOLAR HAS BEEN DELIVERING WOOD PERFECTION IN SERIES. SINCE 1928.

KOLAR DOESN'T HAVE CUSTOMERS. KOLAR HAS INSPIRED PARTNERS

ADMONTER HOLZINDUSTRIE

"As a core partner of end and connecting profiles as well as acoustic components, we are here in good hands. Important topics such as secure delivery, flexibility and solution orientation are the stable foundation of our cooperation."

Johannes Kniewasser | Purchasing Manager | Admonter Holzindustrie AG Austria

JELDWEN-TÜREN

"For DANA as a leader in interior doors, it is always necessary to think the impossible in order to achieve the possible. For the realization of what is possible, we need experienced and creative suppliers who see our needs. Kolar is on our side and always happy to help and advise."

Franz Böhm | Product Developer Jeldwen-Türen GmbH | Austria

AUGUST VORMANN

"The precisely made crafted wooden handrails and fasteners with an "aluminum core" from Kolar have been complementing our innovative ball-handrail system for many years and are an important part of the range in terms of quality, choice and technical expertise."

Fred Schemmann | Merchandise Purchasing Manager | August Vormann GmbH & Co | Germany

MINKA

"Minka required a high-quality handrail system for its staircases. Kolar supplies us with this product and we appreciate the innovative, flexible and trusting cooperation."

Ernst Janner | Managing Director MINKA Holz- und Metallverarbeitungs GmbH | Austria

THIS IS WHAT OUR PARTNERS SAY

J. U. A. FRISCHEIS

"The long-term partnership is based on flexibility, confidence and trustworthiness. The capacity to react to market developments and requirements promptly, makes Kolar an important partner for us."

Werner Stix | Managing Director
J. u. A. Frischeis GmbH | Austria

KIENHOLZ OBJEKTBAU

"We realize ambitious projects in upscale property construction for our customers, and we rely on the high-quality products from Kolar for this. We also really appreciate the reliability and professionalism of Kolar. Despite corona regulations, Kolar has always made every effort to meet the agreed deadlines."

Reinhard Kienberger | Owner
Objektbau KIENHOLZ | Germany

VKF RENZEL

"Very knowledgeable together with experience, interconnected with an abundant variety of manufacturing options, guarantees excellent results!"

Martin Malik | Consulting
VKF Renzel GmbH (Displays
und Werbeartikel) | Austria

TISCHLEREI PATRICK HERBST

"In the last few years, we have developed a very good cooperation with Kolar, one we would not want to be without. The innovative materials, the uncomplicated processing and the friendly handling at all times has satisfied us. We look forward to further projects!"

Patrick Herbst | Managing Director
Tischlerei Patrick Herbst | Österreich

MATERIALS INC.

"Kolar has been an extremely valuable partner of ours for over a decade. Architects throughout the country have used Kolar's products in restaurants, spas, casinos, residences and hotels. Their range of products, customer service and corporate leadership makes us look forward to keep working with Kolar in the future!"

Patrick Kelly | Regional Project Manager | Materials Inc | USA

TRAGNI

"For many years we have been collaborating with the company Kolar, introducing in the demanding Italian furniture Industry Kolar's innovative products, characterized by high quality and smart solutions."

Elisa Leveni | Product Consultant
Tragni Srl | Italy

MIELE

"Our cooperation with Kolar has spanned several years. The very high quality and prompt deliveries make Kolar a trustworthy and reliable partner."

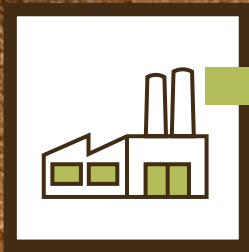

René Süggeler
Purchasing Cooling and Freezing
Miele & Cie. | Deutschland

INTERNORM

"We from Internorm have appreciated Kolar as a competent and fair partner for years."

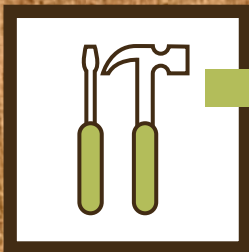

Mag. Hermann Haller
Purchasing and logistics management
Internorm | Austria

KOLAR BRINGS WOOD PERFECTION INTO YOUR LIFE.

As a specialist in processing and production of solid wood products, Franz Kolar GmbH has been a reliable partner for over 90 years. Over the decades, new technologies, markets, and opportunities have opened up, therefore, numerous innovations have emerged. In addition to solid wooden panels, today, we also offer design panels, handrails, grilles and numerous individual special productions. The core competence is and remains the development and production of wooden parts in perfect quality from the natural material of wood. We have developed into a mixture of individual, project and series productions.

Our technically competent employees as well as numerous special machines form the basis for this. At both of the company's locations around 180 employees are in service who employ around 2,000 of the firm's B2B customers.

Around 100 orders leave the production plant daily.

**WITH TRADITION
AND INNOVATION.**

Our first catalogue from 1932.

Each profile has its own tool manufactured and serviced in our workshop.

Our subsidiary near to Znaim (CZ). Our production facility since 1993

Parent company in Brunn / Gebirge (A). Development and sales all over the world.

KOLAR DELIVERS UNCONDITIONAL QUALITY.

We love wood in perfection.

In partnership with our customers from the industrial and planning sector, we create valuable wooden elements and series products, which stand for a sustainable lifestyle. That is where we excel.

Quality raw material

Kolar only uses the best quality wood in its production and always sources sawn timber from sustainable forestry. We document our environmental awareness through PEFC and FSC® certification of our locations.

The constant supply of quality sawn timber is the basis for our work. Lumber is bought in board form. For constant further processing, the wood must have the optimum moisture content for interior construction. To do this, wood that is too damp is dried in our own drying chambers.

A constant measurement and verification ensures constant moisture content.

In favour of a higher material yield, we like to use more manpower. This allows us to deal with resources as sparingly as possible. When manufacturing, shorter pieces of wood are used and thanks to finger-jointing, a far higher proportion of this valuable material is processed. Wood obliges us to think and act sustainably.

We take care of our environment.

The resulting wood waste is used as heating material and the complete production line including the office space is heated with it.

**FROM RAW MATERIAL
TO THE FINISHED PRODUCT.**

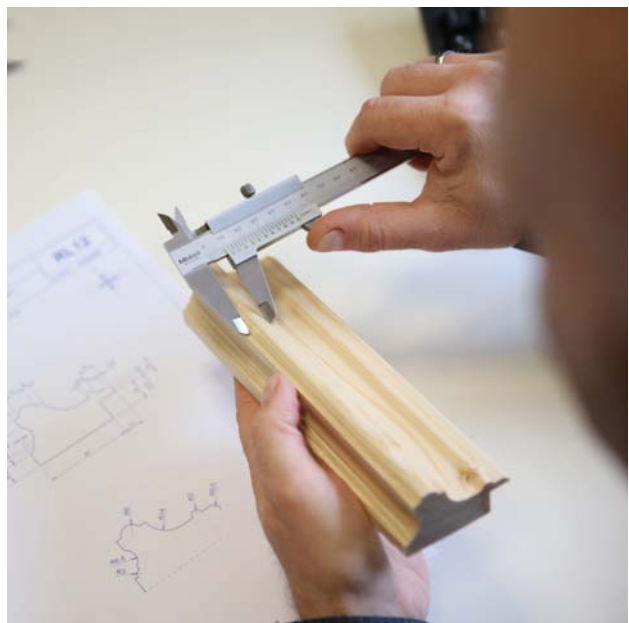

We store a total of around 1,500 m³ of sawn timber in around 20 different types of wood.

Proud of international awards.

Over the years, we as a company but mainly our products, have won international awards.

Our commitment:

*for FK Kolar Production

KOLAR HAS A VAST STOCK.
THE BEST QUALITY.
ASH TO WALNUT.

An abundance of profiles and available types of wood. At our two operating locations, a total of approx. 800,000 m of **panels and components** are stored.

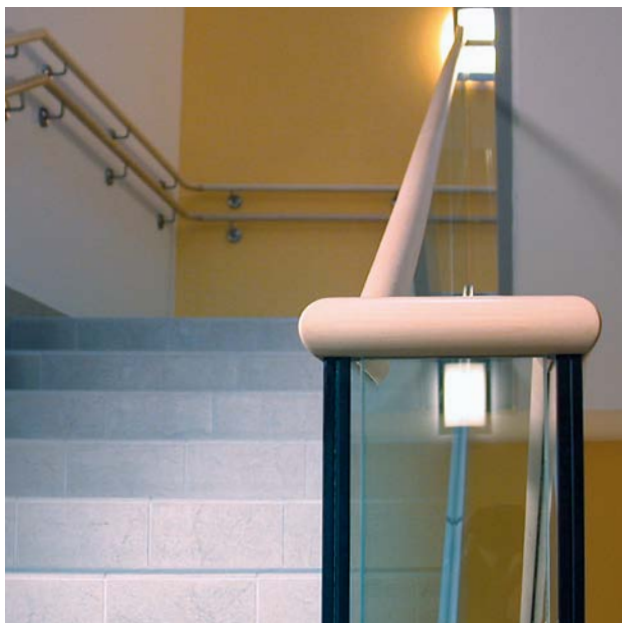

Design panels from the brands STEPWOOD® and dukta®: With these wooden materials, we offer solutions for added acoustic value for the eyes and ears. In different types of wood, designs and appearances.

- HANDRAILS INCL. ACCESSORIES
- SOLID WOOD PANELS
- FINISHED FRAMES
- WOOD AND VENTILATION GRILLES

- CARVING PANELS AND ORNAMENTS
- DESIGN PANELS STEPWOOD®
- DESIGN PANELS DUKTA®
- VENDOR PARTS MADE OF WOOD

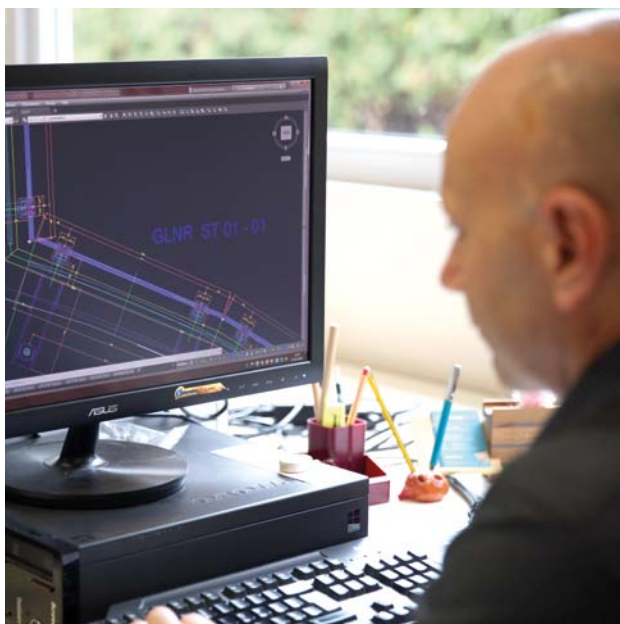

Kolar **handrails** were developed for modern day and safety-conscious interior design. They offer you the highest quality combined with tremendous versatility as well as being easy and clean to process.

Our competence is the development and production of **vendor parts** from the natural material of wood. With our customers and partners, we share our expertise and accompany you in the implementation of product solutions.

WHEN A VISION BECOMES A REALITY IN WOOD.

Product development: We support series manufacturers and commission manufacturers with their product development using our experience in wood.

Enable the **success of new projects** through personal advice, detailed planning, suitable material selection, practice-oriented construction and highly skilled (individual or serial) production.

**Kolar is with you every step of the way.
From the choice of wood to the finished
desired product.**

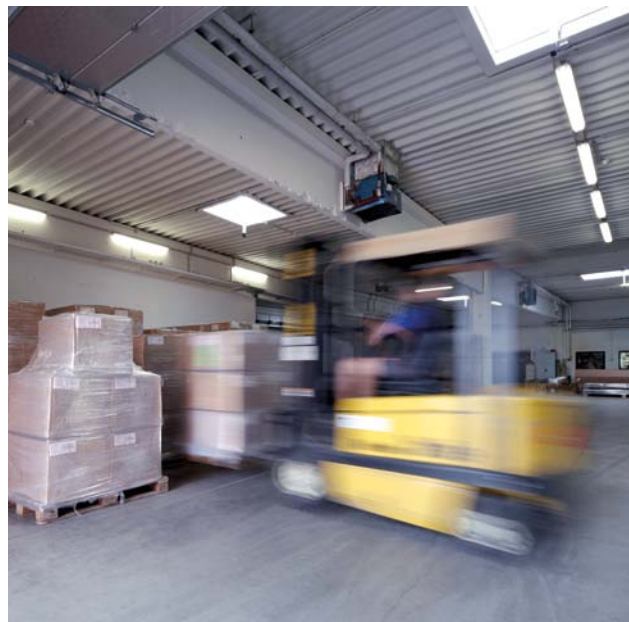

Our long-term success is built on constant development of innovative products and the close cooperation with our customers. For these we act as a quality partner and at the same time "problem solver" for their requirements: because alongside developing new products for our standard program, we also create special productions for our customers. We are able to fulfill even the most

challenging wishes of our customers. We develop according to order. Or we deliver from our many pre-commissioned products corresponding to the requirements of our customers.

**THAT SAVES TIME, MONEY AND
BRINGS ENORMOUS COMPETITIVE
ADVANTAGES.**

Your wish is our benchmark! That means:
Flexibility in production and finishing,
(New) product development which we also do
together with our partners as well as reliable
and rapid preparation of orders.

No long waits for ordered goods with us:
We take over reliable delivery - on request
commissioned, packaged and also delivered
directly to construction sites.

KOLAR REALISES YOUR VISIONS. FROM PROTOTYPES TO SERIES PRODUCTION.

Kolar has been supplying the industry for many years with vendor parts made of wood: special profiles and special products through to complex semi-finished or finished components.

Our offer is aimed at series manufacturers and commission manufacturers alike. Through quality and the highest precision, we contribute a building block to a strong ensemble. Profit from our know-how, our modern production and premium services, such as joint product development.
